

HOLIDAY FEAST

This holiday, you and your team are tasked with providing a socially distant holiday feast for the entire Renert community. You will have to decide on a menu consisting of at least one appetizer, two mains, and a dessert; the recipes must come from [the provided data set](https://tinyurl.com/y6erz76a) (<https://tinyurl.com/y6erz76a>). You will also need to determine the method of delivery to maintain social distancing for your feast. You will need to determine:

1. The required quantities of each ingredient
2. The cost of ingredients
3. The cost of delivery
4. The cost of preparation

You will have Wednesday, December 9 - Tuesday, December 15 to prepare your presentation (in class). You will present your budget to a panel of experts who report to your benefactor on Wednesday, Dec. 16.

- You will be working in teams of **three to four**.
- Your presentation **must** be 2 minutes or less.
- You are encouraged to utilize google sheets to summarize quantities and costs for the proposal.
