

PARAMETRIC PAINT OFF

Blending the beauty of mathematics with art

The Challenge

Create an art piece that blends **At least 3** parametric functions. Your piece must include a description of **ALL** functions included.

You will be given a score based on a 30 point scale marked on **three categories**:

- Correctness of mathematics (10 points)
- Beauty (10 points)
- Creativity (10 points)

GOOD LUCK, be a beauty and a beast.
